

■ IAX CONNECT service for Asterisk

Denphone's IAX CONNECT service enables Asterisk users worldwide to connect to the Japan Public telephone network via the Internet over Asterisk's IAX Protocol. Japan local calling (Tokyo), Japan telephone numbers (Tokyo) and 0120 (Toll Free) numbers are also available with this service. *Please note that in Japan, all calling is metered, including local calling.*

We provide this service to both end users as well as resellers. Please contact us for volume rates if you are a volume buyer or wholesaler.

This service is designed for regular business users. Users who exceed 10% line utilization, please refer to our business call center guaranteed grade service (below).

■ Outbound Calling (Call to Japan) Service

This service provides domestic Japan calling via IAX. You can connect to this service via IAX and call Japan at very competitive rates.

Installation Fees

| | |
|------------------------|------|
| Base circuit Setup Fee | 2500 |
| Per Channel Setup Fee | 800 |

Monthly Fee

| | |
|----------------------|------|
| Service Base Fee | 2500 |

■ About Denphone K.K.

▶ Japan's most flexible PBX solution

We provide the Denphone range of PC/Linux based software PBX systems. Our solutions are based on the Asterisk open source architecture and support a wide variety of configurations and connectivity options.

▶ Flexibility

Denphone systems support ordinary analogue telephones, as well as IP telephones based on SIP, IAX, and IAX2. We provide full connectivity solutions to the Japanese telephone network (analog, ISDN INS-64, INS 1500, SIP).

▶ Connectivity

Denphone has a wide variety of connectivity solutions to local Japanese carriers such as NTT (ISDN, INS 1500), KVH, and other local, cellular and long distance carriers in Japan.

Custom Solutions

Denphone can build a wide variety of custom IP PBX and telephony solutions based on your specific requirements. This includes channel banks, IP/Analog converters, IVR voice menus with database connectivity, credit card billing and ID systems..etc. Just ask us, we can build it for you affordably if you cannot find it elsewhere.
